

**CALIBRATION
 and
 CERTIFICATION**

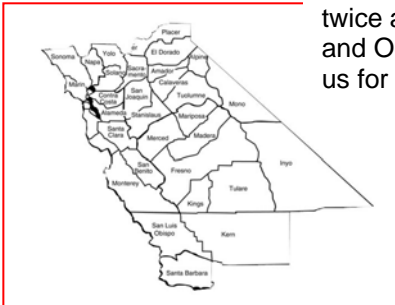

**WE CALIBRATE ANY BRAND OF
 GRANITE SURFACE PLATE**

Prices for calibration and resurfacing of **Granite Accessories** are quoted on request and serviced in our facility. Please call us for a RMA number to accept your shipment.

Note: Calibration charges are waived if resurfacing is completed at the time of calibration. Travel Charge is not included.

We service parts of the **Northern California** area twice a year; usually in April and October. Please contact us for more information.

We service our **Southern California** area daily. To schedule an appointment, please contact us.

PRECISION GRANITE products include a Calibration Certificate which verifies:

- traceability to NIST - National Institute of Standards & Technology
- compliance with ISO/IEC 17025, ISO 10012, ANSI/NCSS Z540-1
- Federal Specification GGG-P-463c
- inspection by autocollimator and repeat gage
- overall flatness and repeat measurement accuracy

ISO 9000

provides the requirements for quality management and quality assurance throughout the processes of producing and delivering products and service for the customer. Certification to the ISO 9000 standard verifies that **PRECISION GRANITE** conforms to the ISO 9000 standards and enhances customer satisfaction in supplier-customer relationships.
